

## Mr. John Swan

---

John's career as a corporate executive and consultant includes more than 34 years of senior management in corporate information systems, and marketing / business development with some of the most progressive software, communications and energy companies in North America. John is President of Swan & Associates Inc., which specializes in solutions marketing and business / process re-engineering and optimization for global client companies.

John has been a founding executive member with the Exigen Group, a global "business process efficiency" company located in San Francisco. In this role he developed relationships and business process solutions for clients while building a world-class software solutions and business process outsourcing company.

Previously, John held executive management positions with the New Brunswick Telephone Company, located in Saint John, NB, and with Irving Oil Ltd., a multi-billion dollar Canadian petroleum refiner and retail marketer.
